

MAXIMISING YOUR CHILD'S LEARNING POTENTIAL

9:00 am - 12:00 pm, 27 April 2013
Jurong Primary School

This talk will provide parents with a snapshot view of what scientists now know about our brains, specifically the early development of a child's brain. Discover how to stimulate your child's synaptic connections during the critical years of your child's brain development.

The first 10 years are when the child's brain is most active and when critical synaptic connections are being made. These years will determine how the child learns in later life.

Join us and discover multiple intelligences and the different learning styles of children. Learn how to identify the different learning styles and how to devise learning strategies to help make learning fun and effective for your children.

Outline:

- Understanding our brains
- Discover learning styles
- Identifying learning styles
- Appreciating your child's learning styles
- Discovering and devising learning strategies & good learning habits for your child

GUEST SPEAKER: Chee Wei-lin (LLB. (Hons.); M. Org. Lead. (Monash))

Chee Wei-lin is the former Director of Training & Resource of a top tier legal firm in Singapore where she managed a continuing professional development programme for more than a 100 lawyers. She was also Deputy Public Prosecutor and State Counsel within the Singapore Legal Service in the Ministry of Defence and Commercial Affairs Department. After more than 13 years in legal practice, Wei-lin transitioned from her successful practice as a litigation partner of a law firm to her current role in training, facilitation and coaching of individuals because of her passion to see people live to their fullest potential with joy. She holds a Master in Organisational Leadership from Monash University and is a CoachU Graduate, Emergenetics Certified Associate, Certified Highlands Affiliate and Certified Behavioral Consultant of the DISC Personality System. She remains an Advocate and Solicitor of Singapore, is a Member on the Solicitor's Rolls of England and Wales and of the Singapore Academy of Law. She is actively involved in facilitation and coaching programmes for leadership development, as well as in the personal and professional development of executives, professionals and managers. She has worked with both public and private sector institutions as well as with non-profit organizations within Singapore and the ASEAN region.
