**RE: Revised school measures for novel coronavirus**

Dear Parents,

MOE has stepped up the risk assessment of 2019-nCoV from DORSCON Yellow to DORSCON Orange. MOE will introduce further measures on top of stepped up measures already in place since 5 Feb. This is to ensure that our schools remain a safe environment for our students and staff.

We will suspend all inter-school and external activities until end of the March holidays. This is to reduce the risks of exposure from inter-mingling of students across schools and minimise exposure to crowds at external venues.

These activities include National School Games, learning journeys, SwimSafer programmes and mass events by external organisations. School-based CCAs and after-school programmes may continue, in smaller groups.

We encourage you to observe good personal hygiene practices with your child, and see a doctor promptly if they feel unwell.

We urge parents to rely on official sources of information and not to circulate any unconfirmed information.

You may access the website link: <https://www.moe.gov.sg/faqs-wuhan-coronavirus-infection> for more information.

Thank you for your assistance in making our school a safe and healthy environment for learning.

Robin Ong  
Principal
